## What Piano

The trust of the people is so frequently abused in the Piano trade that many people are bewildered and fearful when they set out to purchase a piano.

But if you come to Darrow's you can leave doubt and misgivings at the door.

At Darrow's there are no inflated prices and a mysterious scale of discounts leaving the purchaser in doubt as to whether the final price asked is as low as the instrument can be bought for by anyone. Nor do we conduct pseudo contests, rebates or gift schemes, or other devices intended to fool the customer into believing he is getting something for nothing.

THERE IS BUT ONE PRICE PER PIANO AT DARROW'S, AND THAT IS THE LOWEST PRICE. The expert and the inexperienced buyers are on the same footing here.

Whatever Piano you buy of us is the Standard in its class and is covered by the broad guarantee of the largest Piano concern in Eastern Oklahoma. Each has real music merit. Even the lowest priced instruments are thoroughly dependable, price considered.

ANOTHER BIG SMELTER  
COMES TO OKLAHOMA

GAS IN OSAGE AND WASHINGTON COUNTIES ATTRACTS ENTERPRISES.

BARTLESVILLE, Okla., May 26.—(Special.)—In the announcement made today that one of the largest smelting plants in the world is soon to be located here it also developed that Washington and Osage counties, because of their wonderful gas resources are soon to become the greatest manufacturing centers in the southwest. Representatives of the corporation who are to construct the plant are in the city as well as at Pawhuska, arranging for a supply of natural gas to operate the plant. When this is completed, work will start at once in the erection of the plant. One of the representatives of the corporation made public the announcement that the plant would give employment to at least 1,000 men. The new smelter will be erected some distance west of the present smelter plants in this city across the Osage county line. Trackage and a site have already been decided upon.

The gas experts sent here by the corporation have satisfied themselves that the gas fields in these two counties are good for years to come, and with cheap fuel it can afford to spend thousands of dollars in erecting a plant.

One reason assigned by the corporation for entering this field is the large supply of shallow gas available here. This gas cannot be piped out of here any great distance for the great pressure is inadequate and it must be consumed within fifty miles of the point of producing. There are

millions of feet of this kind of gas produced daily in these two counties. It has been figured out by a gas expert who has been here that there is a supply of this kind of gas to keep a manufacturing city of 500,000 people supplied with gas for many years.

DANIELS DEFENDS THE NAVY

Only Menace to Peace Is Buying of Colonies, He Says.

WASHINGTON, May 26.—In a vigorous defense of the purposes of the American navy at a "North State Dinner," given here tonight in his honor, Secretary Josephus Daniels declared that "the only menace to our peace today is due to the buying of colonies in the east, the people of which did not come to us of their own free will."

The secretary declared he stood for a navy for defense, a navy for protection, but never a navy for conquest. The only use of the navy, he said, was the same use that the public has for a policeman.
